"NORWAYS"

IS STRICTLY a sanatorium for the care and treatment of the sick. It is not a place for persons in search of amusement. The institution is composed of separate buildings and is thoroughly equipped in every particular. The grounds are extensive and beautiful. The cuisine is excellent. Every method of treatment of known value is employed by skilled attendants and specially trained nurses. Patients suffering from all forms of **nervous disease,** *both medical and surgical,* rheumatism, kidney troubles, the various drug habits, are accepted. *Paralytic children* and those in need of the "rest cure" are especially treated. *Only mild mental cases are taken.* Separate buildings for such patients.

Terms. All charges are payable weekly, one week in advance, without exception. They range from $35 to $90 per week, depending upon necessities of treatment and location of room. Regular sanatorium rates include board, room, nursing, treatment and physician's fees. There are no extra charges, unless a special nurse ($20 to $25 per week) is demanded. Average rate $50 per week.

The first complete examination is $10 to $25, whether a patient remain in the institution or not.

Fees for operations depend upon special conditions and are not included above.

Outdoor patients will be charged according to the treatment employed.

Garments. Patients should wear comfortable clothing. No finery is advocated. Each person should have a bath or lounging robe.

Every patient must adhere to the printed rules and regulations of the sanatorium. These are posted in proper places about the buildings. No exceptions will be made to them in any case.

N. B. No person should be brought to the institution who is too weak to be safely removed from home. For further information apply to "Norways" Sanatorium.

Studebaker

Giving the Motor Car Buyer a Chance to Investigate Before he Invests

MANY automobile purchasers, largely on account of the fact that they are unable to secure first-hand information, do not make efficient purchases. Efficient buying depends almost entirely upon knowledge; first, knowledge where to buy; second, what to buy and why.

Few manufacturers have had the foresight to take the public into their confidence and honestly endeavor to explain to them the fine points of their product.

It is the Studebaker policy to describe the Studebaker product in such a detailed way as to leave no doubt in anybody's mind as to the character of motor cars that we are making and selling.

We do so by taking up the various parts individually, explaining how we get the raw material, why we know it is good, how we test it, how it is made up into parts, why our design and construction is proper, how we satisfy ourselves as to our machines' efficiency and endurance, and why the Studebaker product is worthy of its name.

In making our cars at their remarkably low prices, we firmly believe that we are giving you more for your money in material, workmanship and finish, not to mention the liberal equipment, than any other motor car maker in the world.

We are not making this claim unsubstantiated.

Let us send you a copy of our PROOF-BOOK and our CATALOG—THEY ARE INSTRUCTIVE

The man who said "I'll wait until automobiles come down in price" need wait no longer. The STUDEBAKER "35" is the car. Started by electricity, lighted by electricity, seats six passengers comfortably—there is no car under $2000 that approaches the STUDEBAKER "35" in style, comfort and luxury. A wonderful car—experts say.

Six-Passenger Body, 34x4-Inch GOODRICH TIRES, Luxurious Upholstery, Full Floating Rear Axle, Clear Vision, Ventilating Windshield, Rain-Vision Type, Electric Self-Starter, Electric Lights, Electric Horn, Deep Cushions, Silk Mohair Top, Studebaker Jiffy Curtains, Detachable, Demountable Rims, Stewart & Clark Speedometer, Three-Quarter Elliptic Springs, Crowned Fenders, Extra Rim, Tire Holders, Full Set of Tools, Wide Tool Box.

Studebaker "25"

$885

The STUDEBAKER "25" is built exactly as well as the $1290 STUDEBAKER "35" and that means as well built as any automobile at any price. It is not so large as the STUDEBAKER "35," but the quality is there.

NEVER FAILING. The Electro System is not an experiment nor in the experimental stage. The first Electro System was built three years ago, and has been tested and revised until today we claim to have the most perfect Starter on the market, built of the best material, simple in construction, light in weight, but a giant in strength. We earnestly solicit an inspection of our machine, comparing it with others.

Publicity Counsel

Publicity Counsel—
What Does It Mean?

Publicity means advertising—in one or more of its many forms.

Counsel—in our offices—means a plan and its execution—as well as advice.

Ours is, then, a three-fold service: Counsel, plan and execution—as applied to advertising, or publicity problems.

Any one—any two—or all three, at your option.

WE RECEIVE many complaints from our patrons to the effect that they are bothered so much by **BORROWERS.** These parties are not the private citizen nor the stranger in the city, who steps in, looks at the Directory and goes out, but merchants, business and professional men, who need a Directory every day of the year, yet who are too close-fisted to buy one.

These same individuals are the ones that borrow your Directory "just for a minute," which, in the majority of cases, means a day or perhaps a week, unless you remember that they have it and send for it.

These same borrowers will tell the Directory canvasser that he has "no use for a Directory," that he "knows everybody," and, vice versa, "everybody knows him."

We also make Process Color Plates for printing in two, three or four colors

The Magnifying Glass Shows An Important Difference In Favor Of Acid Blast Halftones

Small area of highlight section of halftone, enlarged, showing the deep, clean etch obtained by the "acid blast" process. The raised dots are the printing part of the plate.

Same area of highlight section as shown opposite, except etched by the "tub method," still in use in a majority of engraving plants. Note shallowness and unevenness of dots.

EVERY buyer of engravings appreciates deep, sharp, clear etching. The "Acid Blast" process gives an unrivaled result in this respect. And, in addition, the dots are of such uniform strength that the plate has a superior wearing quality.

In the old-fashioned "tub process" the dots are frequently so undermined by irregular etching that they easily break down in the printing or come off when the plate is electrotyped.

"Acid Blast" halftones require less "make ready," do not fill up easily, electrotype better and print better than the tub-etched kind. The "Acid Blast" process is much quicker than the old method. The time thus saved enables us to give additional inspection and careful finishing touches on each halftone without extra charge.

With all these advantages, our "Acid Blast" halftone costs you no more than the common kind.

We have the exclusive rights to the "Acid Blast" process for this territory.

Let us Help you Design your Letter Head

A REALLY good letterhead is not easily evolved, and it is worth all the study you can give it. We have a portfolio you'd like to see, showing a great variety of letterheads which we have designed —in one, two and three colors, steel-die embossed and plain printed.

We have our own plant for engraving steel dies and embossing and printing letterheads, envelopes, cards, checks, drafts, announcements, etc.

These specimens may lead you to allow us to design your letterhead, or may enable you to perfect the idea you already have in mind.

In either event, will gladly send you these specimens of our work.

WE RECEIVE many complaints from our patrons to the effect that they are bothered so much by **BORROWERS.** These parties are not the private citizen nor the stranger in the city, who steps in, looks at the Directory and goes out, but merchants, business and professional men, who need a Directory every day of the year, yet who are too close-fisted to buy one.

These same individuals are the ones that borrow your Directory "just for a minute," which, in the majority of cases, means a day or perhaps a week, unless you remember that they have it and send for it.

These same borrowers will tell the Directory canvasser that he has "no use for a Directory," that he "knows everybody," and, vice versa, "everybody knows him."

WE RECEIVE many complaints from our patrons to the effect that they are bothered so much by **BORROWERS.** These parties are not the private citizen nor the stranger in the city, who steps in, looks at the Directory and goes out, but merchants, business and professional men, who need a Directory every day of the year, yet who are too close-fisted to buy one.

These same individuals are the ones that borrow your Directory "just for a minute," which, in the majority of cases, means a day or perhaps a week, unless you remember that they have it and send for it.

These same borrowers will tell the Directory canvasser that he has "no use for a Directory," that he "knows everybody," and, vice versa, "everybody knows him."
